A. General Information
LONG DISTANCE RESALE SERVICE

ORIGINAL PAGE 6

Installation Charge: The term "installation charge" means a nonrecurring charge associated with the installation of certain services or facilities either in lieu of or in addition to recurring monthly charges or service charges or rates.

Interexchange Company: The term "interexchange company" means a company, a resale carrier or other entity that provides intrastate, inter-LATA telecommunications services and facilities between exchanges within Arizona without regard to how such traffic is carried. A local exchange utility that provides interexchange service may also be considered an interexchange company.

Interexchange Service: The term "interexchange service" is the provision of intrastate telecommunications services and facilities between local exchanges, excluding EAS.

Local Exchange Utility: The term "local exchange utility" means a telephone utility that provides local service under a tariff filed with the Commission. The utility may also provide other services and facilities such as access services under benefit of tariff.

Local Service: The term "local service" means telephone service furnished between customers or users located within an exchange area.

Local Service Area: The term "local service area" means the area within which are located the lines to which calls may be made under a specified schedule of exchange rates without payment of toll charges.

Local Utility: See "local exchange utility."

A. General Information

1. DEFINITIONS

Message: The term "message" means a telephone call by a customer or user.

Operator Dialed: The term "operator dialed" means a service charge will be applied to calls when the customer has the capability of dialing all the digits necessary to complete a call, but elects to dial only the appropriate operator code ("0", "00" or "1010224+0") and requests the Operator to dial the called station. Handicapped customers who are unable to dial the call because of his/her handicap may request credit for the surcharge from the Operator when the call is made.

Premises: The term "premises" denotes the space occupied by an individual customer in a building, in adjoining buildings occupied entirely by that customer, or on contiguous property occupied by the customer not separated by a public thoroughfare, a railroad right-of-way, or a natural barrier.

Prorate: The term "prorate" means the basis sometimes used for determining the charge for service furnished for a period less than that used in specifying rates. The pro rata charge for a service for which the rate is specified on a monthly basis is 1/30 of the monthly rate times the number of days service was furnished.

Rates: The term "rates" shall mean recurring amounts billed to customers for regulated services and equipment.

Residential Service: The term "residential service" means a switched network service which provides for dial station originations for which the subscriber pays a rate that is described as a residential, non-commercial, or non-business rate in the applicable local exchange service tariff for switched service.

1. DEFINITIONS (CONT.1)

Rotary Pulse: The term "rotary pulse" means the transmission of digital information from a customer's dial to the central office equipment. The numerical value of each digit in the dialed telephone number is determined by the number of on-hook intervals in a train of pulses. The on-hook intervals for each digit are separated by short off-hook intervals, and the digits themselves are separated by relatively long off-hook intervals.

Serving Exchange: The term "serving exchange" means a unit established for the administration of communication services in which Teleconnect holds itself out to provide service. The boundary of the serving exchange for Teleconnect is identical to that filed by the local utility.

Special Dialing Procedures: The term "special dialing procedures" means the dialing procedures which are an exception to the three step procedure. Special dialing procedures are available where a customer is in an equal access area and has registered specific lines with Teleconnect for either "1+" or "10-TEL" dialing. In such a case, and only when dialing from such customer's designated telephone lines, the call may be dialed in the following sequence:

10 + TEL + 1 + area code + long distance telephone number.

Additionally, in the above case and when Teleconnect has been designated as the customer's primary interLATA carrier, and the call is an interLATA call, the call may be dialed in the following sequence:

1 + area code + long distance telephone number.

Suspend: The term "suspend" means temporary disconnection or impairment of service which shall disable either outgoing or incoming communications or both.

Switching Service: The term "switching service" means switching performed for the service lines.

Tariff: The term "tariff" means the entire body of regulated rates, tolls, rentals, charges, classifications, rules, procedures, policies, etc. adopted and filed with the Commission by a telephone utility in fulfilling its role of furnishing communications service.

3. APPLICABILITY

This tariff applies to intrastate interexchange service furnished by Teleconnect Long Distance Services and Systems Company (Teleconnect) between and among points within the State of Arizona. Teleconnect does not hold itself out as a provider of intrastate intralata services.

Effective August 1, 2001, pursuant to the direction of the Federal Communications Commission (FCC), TELECONNECT is canceling its federal tariffs for services with certain exceptions, including those pertaining to exchange access, casual calling, and basic long distance service during a 45-day period for customers who sign up for TELECONNECT service with a Local Exchange Carrier (LEC). International services for Residential and Small Business customers will also remain tariffed through January 27, 2002. Beginning August 1, service descriptions, definitions, terms and conditions, and pricing for the Business Markets services no longer federally tariffed may be found in the "Service Publication and Price Guide" located at the website <http://www.worldcom.com>. Also, beginning August 1, 2001, service descriptions, definitions, terms and conditions, and pricing for state-to-state Residential and Small Business services no longer federally tariffed may be found i) at <http://www.mci.com/service> for Residential services and http://www.mci.com/sb/service_agreement for Small Business services, or ii) by calling 1-800-444-3333.

4. SCOPE OF TARIFF

Interexchange service is furnished within Arizona in accordance with the conditions and regulations which are set forth in the body of this Tariff. All services offered by Teleconnect within Arizona are addressed in this Tariff.

5. NATURE OF SERVICE UNDER TARIFF

Teleconnect proposes to offer its communication services on an intrastate interexchange basis in Arizona.

6. NATURE OF SERVICE

Teleconnect provides resold intrastate interexchange service between points in Arizona on a 24-hour basis.

7. INTERCONNECTION WITH OTHER CARRIERS

Service furnished by Teleconnect may be connected with services or facilities of another participating carrier or may be provided over

facilities solely provided by local utilities and/or interexchange carriers other than Teleconnect. Service furnished by Teleconnect is not part of a joint undertaking with such other carriers.

8. LIMITATIONS

- a. Availability of Facilities, Requirements of Suppliers. Service is offered subject to the availability of facilities, both leased and owned; the requirements imposed by-facility based carriers and their tariffs, and the provisions of this tariff.
- b. Force Majeure; Teleconnect reserves the right to discontinue furnishing service upon written notice when necessitated by events or circumstances beyond its control or when the customer is using the service in violation of the provisions of the tariff or in violation of the law.

9. TERMS AND CONDITIONS

Service is provided and billed on the basis of a minimum period of at least one month beginning on the date that billing becomes effective, and continues to be provided until the customer requests cancellation or until Teleconnect disconnects service pursuant to the provisions of this tariff.

10. LIABILITY

- a. Limitation. The liability of Teleconnect for damages to any party arising out of mistakes, omissions, interruption, delays, errors, or

defects in transmission occurring in the course of furnishing service or facilities shall in no event exceed an amount equivalent to the metered rate charged by Teleconnect for the defective call or, for nonmetered services, the proportionate rate to the customer for the period of service during which mistake, omission, interruption, delay, error, or defect in transmission occurs.

b. Out of Service Conditions. Teleconnect shall make all reasonable efforts to prevent out of service conditions. An out of service condition exists when Teleconnect facilities, either leased or owned, are either not functioning or are malfunctioning such that the customer can complete no interexchange calls on the Teleconnect network or such that the quality of transmission of all calls on the Teleconnect network is degraded below the minimum acceptable standard.

c. Out of Service Adjustment. In the event of an out of service condition which is not due to the negligence or willful act of the customer and which is due to the failure of a Teleconnect owned or leased facility, a pro rata adjustment will be made of any fixed monthly or annual rates for the service affected by said out of service conditions as follows:

.01 The out of service period will be considered to begin at the time the customer first notifies Teleconnect of the service outage. If, in the judgment of Teleconnect, circumstances prevent a customer from notifying Teleconnect of an out of service

condition, the requirement for notification to Teleconnect may be waived, in which case the out of service period will begin with the time at which the out of service condition is first known to Teleconnect.

.02 When the out of service period extends beyond twenty-four (24) hours, the charges for the service affected will be voluntarily adjusted on a pro rata basis for the duration of the service outage.

.03 When an out of service condition continues for a period of less than twenty-four (24) hours, adjustments for such outages will be made if in the opinion of Teleconnect circumstances so warrant.

d. Indemnification. The customer indemnifies and saves Teleconnect harmless against all claims arising out of any act or omission of the customer in connection with services provided by Teleconnect, including but not limited to:

.01 Claims arising from the content or use of material transmitted over its facilities, including claims for libel, slander, or infringement of copyright.

.02 Claims for infringement of patents arising from the use of Teleconnect services in connection with the facilities, apparatus or systems of the customer.

- e. Legal Remedies. Approval of the above tariff language by the Commission does not constitute a determination by the Commission that the limitation of liability imposed by Teleconnect should be upheld in a court of law. Approval by the Commission merely recognizes that since it is a court's responsibility to adjudicate negligence and consequent damage claims, it is also the court's responsibility to determine the validity of the exculpatory clause.
- f. Customer Equipment. Teleconnect shall not be liable for damage arising out of mistakes, omissions, interruptions, delays, errors or defects in transmission or other injury, which is caused by customer provided equipment or non-Teleconnect services being used in conjunction with Teleconnect service. It shall be the customer's responsibility to ensure that the customer premises equipment is compatible with the service furnished by Teleconnect.
- g. Voice Grade Service. Unless an application is specifically guaranteed by Teleconnect, Teleconnect shall not be liable for damages arising out of the use of the Teleconnect network for the transmission of other than voice grade service.
- h. Unauthorized Use. Any individual who uses or receives Teleconnect service, other than under the provisions of an accepted application for service and a current customer relationship, shall be liable both for the tariffed cost of the service received.

11. APPLICATION FOR SERVICE

- a. Information Required. When applying for interexchange service each prospective customer will be required to furnish Teleconnect the following information:
- .01 Name of the party who will be responsible for payment for the interexchange service provided.
- .02 Address or exact location of the premises where interexchange service is to be provided and billed.
- .03 Any information required to make a proper determination of appropriate credit worthiness.
- b. Selection of Service Type. Teleconnect offers several different types of service, and multiple options for those services. All services and options are set forth in this tariff. The customer is responsible for the selection of the service and the options.
- c. Change of Service. The customer may change the service received and transfer to another service otherwise available to them. In such a case, the customer will receive a credit against any one-time setup fees for the new service in the amount of any one-time setup fees paid upon the origination of the service being discontinued.
- If the one-time setup fees for the new service are less than the one-time setup fees for the service being discontinued, the customer shall pay no one-time setup fee for the new service but shall not otherwise be entitled to any credits or remission from charges.

Such credit is denied because the customer received benefits from the higher set-up fee in that the higher volume discounts were available while the previous service was in effect. Also, Teleconnect incurs certain costs in converting the customer from a service which includes a volume discount to one which does not.

- d. Additional Lines Required. When Teleconnect's interexchange service to the public is impaired by a customer's use of telephone service, Teleconnect shall have the right to require the customer to contract for and properly attend as many additional telephone lines as needed to adequately serve the customer's requirements, or to discontinue the service of the customer in question.
- e. Initiation of Service. Service shall be considered initiated hereunder upon the earlier of the following:
 - .01 First use by the customer of the Teleconnect service, and,
 - .02 The receipt by Teleconnect of a customer's initial payment for Teleconnect service.

12. DEPOSITS

- a. Requirement. Teleconnect may require from any customer or prospective customer a deposit to be held as a guarantee for the payment of charges. Any applicant who is not a previous customer of Teleconnect having an established prompt payment record may be required to pay a deposit. Teleconnect will consider employment record and other information pertaining to credit worthiness..

- b. Amount. The amount of the deposit shall not be more than two months tariffed services for any specific customer. The amount of tariffed services may be estimated from past toll usage, customer estimated anticipated usage or Teleconnect state average toll usage considering type and nature of service. The amount of deposit may exceed this total when service is provided for short periods of time or special occasions such as political campaigns and fund raisers of a short duration.
- c. Existing Customer. An existing customer may be required to make a deposit or to increase a deposit presently held when a deposit is inadequate to cover two months interexchange service, interexchange usage is abnormal or the customer's credit is impaired. Service may be disconnected unless the new or additional deposit is made within 15 days after written notification.
- d. Abnormal Usage After Six Months. For customer with at least six consecutive months of service, abnormal usage of interexchange service is defined as at least a 25 percent increase in monthly interexchange charges amounting to at least \$25.00. Customer's average monthly interexchange bills for not less than the prior three months shall be used in determining the increase.

- e. Abnormal Usage Before Six Months. For customers with less than six consecutive months of service, abnormal usage of interexchange service is defined as when one month's interexchange service exceeds the deposit attributable to interexchange service by at least 25 percent or amounts to at least \$25.00.
- f. Handling of Deposits. Deposits shall be sent to: Teleconnect Company, 500 Second Avenue S.E., Cedar Rapids, IA 52401. Teleconnect will maintain records which show the name and address of each depositor, the amount and date of the deposit, and each transaction concerning the deposit. Unclaimed deposits together with accrued interest shall be credited to an appropriate account and shall be disposed of in accordance with the law.
- g. Receipts. A receipt of deposit will be furnished to each customer from whom a deposit is received. Upon customer request, duplicate receipts will be provided to customer who have lost their receipt if the deposit is substantiated by Teleconnect's records.
- h. Customer Obligations. The fact that a deposit has been made in no way relieves the customer from complying with Teleconnect's regulations as to the prompt payment of bills.
- i. Interest. Interest at the rate set by the statute, compounded annually shall be paid for the period during which the deposit is held. If no rate is set by statute or the minimum rate is less than 6%, Teleconnect will pay interest of 6% per annum.

- j. Refund or Credit. The deposit shall be refunded or credited to the customer upon request after not more than 12 consecutive months of prompt payment unless the Company has tariffed information which indicates the deposit is necessary to insure payment. Within 30 days of issuance of the final bill, the amount of the deposit, plus any accrued interest is credited to the customer's account and any credit balance is refunded.
- k. Reestablishment of Deposit. If the -customer is delinquent two or more months during any twelve (12) month period, Teleconnect may implement or i-e-implement a deposit as set forth in this tariff.

13. ADVANCE PAYMENTS

- a. Applicants. Applicants for interexchange service may be required to pay in advance of installation any service connection or installation charges.
- b. Existing Customers. Existing customers who apply for additional interexchange service or changes in their existing service may be required to make advance payments, as described above, when the customer does not meet Teleconnect's credit standards or a sufficient credit history is unavailable.

14. BILLS

- a. Regular Bills. Regular customer bills are issued monthly. Each bill contains the dates included in the billing period, dates for service charges associated with work performed and the last date for timely payment. Bills include the amount the customer is charged, stated by category, sales tax and excise tax, with separate entries for total amounts current or in arrears.
- b. Customer Requested Adjustments. Reasonable customer requested adjustments to monthly bills may be made if the customer brings the desired adjustment to Teleconnect's attention within sixty (60) days of issuance of the bill. Teleconnect reserves the right to extend the period for adjustments beyond the sixty (60) day period if, in Teleconnect's judgment, the situation so warrants.
- c. Preferred Payment Date Plan. All customers shall be permitted to have their last date for timely payment changed for cause by submitting an application for same. Such a change will only become effective when acknowledged by Teleconnect. Until acknowledged, no change in date of timely payment is recognized by Teleconnect.

15. PAYMENT FOR SERVICE

The rates specified in this tariff are generally rates based on usage, billed monthly and generally payable in arrears except as otherwise provided.

All customers shall be permitted to have a last date for timely payment changeable for cause in writing.

Customer payments are considered prompt when received at Teleconnect or its agent by the due date on the bill. The due date is twenty (20) days after the bill is rendered. Any customer not paying within twenty (20) days is considered delinquent.

Teleconnect may assess a late payment charge for FLEX-SAVE PLUS, SURE-SAVE PLUS, DAYSAVER PLUS, SUPERWATS PLUS, PROFITLINE PLUS, TRAC 10 and TRAC 800. Teleconnect may request payment upon issuance of a final bill when service is terminated at the customer's request. For all other bills, payment will not be requested until the due date.

The maximum payment required for restoration of service that existed prior to disconnection shall be the total past-due amount, applicable nonrecurring charges, and if appropriate, an Advance Payment and Deposit as specified elsewhere in this Tariff.

The customer is held responsible for all charges for services furnished at the customer's request and for all toll service furnished. Failure to receive a bill does not exempt the customer from prompt payment of the account. It is the customer's responsibility to contact Teleconnect when no bill is received.

Except as provided elsewhere in this tariff, the rate for a fractional part of a billing period is a pro rata share of the rates for a full billing period as specified in this Tariff. If the prorating indicates a refund is due, the refund is applied as a bill credit.

16. CHECK SERVICE CHARGE.

A check service charge will be assessed for any reason a check tendered by a Teleconnect customer as payment for tariffed service is returned to Teleconnect or is not in acceptable form. This service charge will be \$10.00. Examples where the charge is applicable include, but are not limited to, the following:

- a. Insufficient funds
- b. Improper or lack of endorsement
- c. Check issued in such a manner as to be unreasonable or unprocessable.
- d. Conflict in amount as shown numerically and the amount written alphabetically on the check.
- e. Qualified endorsement not acceptable by Teleconnect.
- f. Customer placing a stop payment on an issued check.
- g. Any other reason that would cause Teleconnect to return a check issued.

17. LATE PAYMENT

Customers who submit delinquent payments are subject to the following:

- a. High Volume Discount. FLEX-SAVE PLUS, SURE-SAVE PLUS, DAYSAVER PLUS, TRAC-10, PROFITLINE PLUS and TRAC 800 customers who submit delinquent payments may forfeit the high volume discount.
- b. Customer Deposits. Teleconnect will apply a customer's deposit on file toward that customer's delinquent payment amount and/or legal fees incurred in relation to delinquent bills.

18. INITIAL SERVICE PERIODS AND TERMINATION OF SERVICE

The initial service period for service is one month except as specified in other sections of the Tariff.

The initial service period for service of any class may be greater than that specified above or elsewhere in this tariff when facilities are not available and the customer's location or the character or quantity of the service requested is such that, upon termination of the customer's use thereof, the required facilities are not likely to be useful as a part of a properly designed telephone distribution system serving telephone users in or beyond the customer's location. Under these circumstances, Teleconnect may use either individual case basis installation charges or contracts requiring basic termination liabilities.

When other utilities who provide Teleconnect with facilities impose individual case basis installation charges or contracts requiring basic

termination liabilities, Teleconnect will pass these obligations on to those customers who make use of such facilities. Teleconnect will use the same type of instruments of obligation with the customers as the utility providing the facilities imposes on Teleconnect.

Service may be terminated prior to the expiration of the initial service period upon payment of all rates due for service which has been furnished plus the termination charges as specified in this Tariff. If service is continued through the initial service "period, the initial bill fee is waived. In the case of service for which the initial period is one month, the charges due are for the balance of the month.

Service which has continued beyond the initial service period may be terminated at the end of a billing period without charge except for payment of all charges due for service which has been already furnished.

19. TRANSFERS OF SERVICE/RESPONSIBILITY FOR CHARGES ASSOCIATED
WITH REQUESTED AUTHORIZATION CODES

- a. Transfers. Transfers of service are not allowed. Service can be expanded to include use by the new spouse of an existing customer.
- b. Requested Authorization Codes. When a customer requests that service be established by means of a specific, previously used authorization code or codes, all ongoing rates and charges associated with such code or codes will be made known to the prospective customer.

Assignment of the code or codes to the prospective customer will be contingent upon the customer's acceptance of responsibility for all such ongoing rates and charges.

20. USE OF SERVICE FOR UNLAWFUL PURPOSES

The services tariffed are furnished subject to the condition that they will not be used for any unlawful purpose. Services will not be furnished if any law enforcement agency, acting within its jurisdiction, advises that such services are being used or are likely to be used in violation of the law. If Teleconnect receives other evidence giving reasonable cause to believe that such services are being or are likely to be so used, it will either discontinue or deny the services or refer the matter to the appropriate law enforcement agency.

21. MAINTENANCE AND REPAIR

- a. Customer Liability. The customer shall be responsible for damages to Teleconnect's leased or owned facilities caused by the negligence or willful act of the customer or those using Teleconnect service through the customer. The customer or those using through the customer may not alter, physically modify or intrude upon, rearrange, disconnect, remove or attempt to repair, or permit others to alter, physically modify or intrude upon, rearrange, disconnect, remove or attempt to repair, any Teleconnect facilities except upon written consent of Teleconnect.

- b. Leased or Owned Facilities. The customer's obligation to Teleconnect is the same whether the facilities involved are Teleconnect-owned facilities or are facilities leased by Teleconnect from another party. If Teleconnect incurs expenses due to the customer's action which result in damage to or impairment of Teleconnect leased facilities, Teleconnect will pass through to the customer any and all expense which the owner of the facilities imposes on Teleconnect.
- c. Limitation on Liability. Teleconnect should have no liability for any damage resulting from actions prohibited under this tariff, including but not by way of limitation:
- .01 lawsuits or other legal action
 - .02 damage caused by abnormal voltage
 - .03 fire
 - .04 medical expense, lost wages, and other expenses for injured personnel
 - .05 damage to C.P.E. or inside wiring

recognizes that since it is a court's responsibility to adjudicate negligence and consequent damage claims, it is also the court's responsibility to determine the validity of the exculpatory clause.

22. DISPUTED BILLS

In the event of a dispute concerning a bill, Teleconnect may require the customer to pay the undisputed portion of the bill. Following payment of the undisputed amount, efforts to resolve the complaint, using complaint procedures in this Tariff, shall continue for not less than forty-five (45) days after the rendering of the disputed bill. During this period the service shall not be disconnected for nonpayment of the disputed amount.

23. CUSTOMER COMPLAINTS

A customer or prospective customer may initiate a complaint with Teleconnect on any relevant matter by telephone, in person, or in writing directed to Teleconnect at any of its offices. Teleconnect's response to the complaint will generally be in the same form used by the customer. However, Teleconnect may respond to written complaints by telephone or personal visits when it believes such communications will be effective in resolution of the issues.

The customer may at any point during resolution of the complaint seek review by a supervisor or manager. If the customer is still not satisfied, the nature of the complaint with sufficient detail to afford an investigation should be tariffed and addressed to: Director of Customer Service, Teleconnect Long Distance Service and Systems Company, 500 Second Avenue S. E., Cedar Rapids, Iowa 52401.

If the customer wishes further review after investigation and final resolution by Teleconnect the customer should then direct all appropriate information to the Arizona Corporation Commission.

24. DISCONNECTION OF SERVICE

- a. Without Prior Notice. Interexchange service may be refused or disconnected without prior notice by Teleconnect for the following reasons :

.01 In the event of a condition on the customer's premises determined by Teleconnect to be hazardous such as installing inappropriate facilities in an explosive atmosphere.

.02 In the event of customer's use in such a manner as to adversely affect Teleconnect's facilities or Teleconnect's service to others.

.03 In the event of tampering with facilities leased or owned by Teleconnect.

.04 In the event of interexchange service being used by a customer in connection with a plan or contrivance to secure a large volume of interexchange calls to be directed to such customer or the telephone service of any designated customer at or about the same time, resulting in preventing, obstructing or delaying the interexchange service of others. An example being radio or T.V. promotions to have an inordinate number of inbound 800 calls directed to a location with insufficient facilities to handle the volume of traffic generated.

.05 In the event of unauthorized use. Following the disconnection of service for any of these reasons Teleconnect will notify the telephone customer that service was disconnected and why. The notice will include all reasons for the disconnection and will include a toll-free number where a customer can obtain additional information. Notice shall be deemed given upon deposit, postage prepaid, in the U.S. Mail to the customer's last known address.

b. With Prior Notice. Service can be disconnected with prior notice for the following reasons:

.01 In the event the customer is indebted to Teleconnect for the same type of telephone service previously furnished.

- .02 In the event the customer supplied false or inaccurate information of a material nature in order to obtain telephone service.
- .03 For failure of the customer or prospective customer to furnish service equipment, permits, certificates, rights of way necessary to obtain service, or for the withdrawal of that same equipment or the termination of those permissions or rights, or for the failure of the customer or prospective customer to fulfill the contractual obligations.- imposed upon him or her as conditions of obtaining service by a contract filed with and subject to the regulatory authority of the Commission.
- .04 For failure of the customer to permit Teleconnect reasonable access to its facilities on the customer's premises.
- .05 For nonpayment of a bill, where a reasonable attempt has been made at collection.
- .06 For nonpayment of deposit as specified.
- .07 In the event the service is or is likely to be used for unlawful purposes.
- .08 Any other violation of the conditions governing the furnishing of service.
- .09 For violation or noncompliance with Teleconnect's rules on file with the Commission, the requirements on any municipal ordinance, regulation or law pertaining to the service.

- c. Notice. For disconnects under A.24.b written notice of a pending disconnect will be rendered ten (10) days prior to the disconnection. The notice will include all reasons for the disconnect and the final date by which payment is to be made or specific action taken. The notice will include a toll-free number where a customer can obtain additional information. A notice of disconnect based upon nonpayment will not be issued until the bill becomes delinquent. Notice shall be deemed given upon deposit, postage prepaid, in the U.S. Mail to the customer's last known address.
- d. Unusual Circumstances. In unusual credit circumstances or abnormal usage of service which would result in undue revenue loss, disconnection may occur prior to the expiration of the ten-day (10) notice (for example, unauthorized use of the customer's authorization code - "hacking".)

25. SUSPENDED SERVICE

Teleconnect may suspend service when a customer is delinquent in payment. Teleconnect will issue the same ten-day (10) notice for suspension of service as is issued for termination of service. If Teleconnect and the customer cannot resolve payment of the delinquent bill, service may be terminated without any additional notice, and without service being reestablished.

26. DEACTIVATION OF SERVICE

If a customer's Teleconnect service is unused for a period of six (6) consecutive months, the customer's authorization code may be deactivated. Deactivation of an authorization code under this section will be done only upon ten (10) days notice to the customer. Service will be restored by issuance of a new authorization code without charge upon subsequent written request of the customer.

27. CANCELLATIONS AND DEFERMENTS

When a customer cancels or defers an order for service before the service is activated, a charge applies to allow Teleconnect to recover its unrecovered costs including but not limited to engineering, labor, material, and equipment. Charges apply as follows:

- a. Cancellation. In a cancellation situation, the charge is equal to the unrecoverable costs incurred prior to the request for cancellation and the costs of removal, restoration, and disposal, if any, to comply with cancellation. These costs include, but are not limited to, engineering, labor, and nonrecoverable material and equipment expense. The maximum amount charged shall not exceed the total of all minimum monthly and termination charges which would have been established.

b. Deferment of Start of Service. In a deferment of service situation, the following charges apply:

.01 If the request for deferment is received by Teleconnect prior to the date an order for the equipment or service is placed with its supplier--no charge shall apply.

.02 For deferments received by Teleconnect subsequent to the date the order for equipment or service is placed with its supplier, a monthly recurring charge based upon costs incurred prior to the request for deferment applies. The monthly rate equals the deferred investment times a monthly interest rate of 5.5% plus recurring costs resulting directly from the deferral such as storage, taxes, etc. In addition, any extraordinary non-recurring costs resulting from the deferral, such as additional engineering and labor or transportation, shall be billed in total. Billing shall start at the beginning of the month of deferment and extend to the start of service. Charges shall not exceed the monthly rate which would have applied had the service been established. Teleconnect will charge the customer who defers service any and all rates incurred by Teleconnect for any leased facilities for which Teleconnect is held responsible. Teleconnect will make a good faith effort to minimize those charges whenever possible.

A. General Information

30. Payphone Use Charge:

An undiscountable per call charge as described in MCI's FCC Tariff No. 1 is applicable to calls that originate from any payphone within the state used to access MCI services as follows. This charge, which is in addition to standard tariffed usage charges and any applicable surcharges associated with MCI service, applies for the use of the instrument used to access MCI service and is unrelated to the MCI service accessed from the payphone. Customers of Metered Use Services will be charged the payphone use charge for each call which is placed from payphones within the state. The payphone use charge does not apply to calls placed from payphones at which the customer pays for service by inserting coins during the progress of the call; calls using Telecommunications Relay Service; calls originated by customers with qualified-hearing or speech impairments who are certified.

1. DESCRIPTION

- a. Nature of Service. Flexible MTS Services are interexchange telephone services, which allow customers to originate calls from any specified Teleconnect exchange, as listed in the Tariff, and terminate calls in any interLATA location within the State of Arizona. Usage charges are based on the distance, duration, and time of day of each call. High volume discounts are applicable as specified in this Tariff.
- b. Dialing Procedure. Flexible MTS Services may be accessed by the special dialing procedures or via a DAL.
- c. Specific Plans. Included in the Flexible MTS Service Family. Flexible MTS Services are comprised of the following plan types:
- .01 FLEX-SAVE PLUS.

2. AREAS OF AVAILABILITY.

Teleconnect offers Flexible MTS Services in the areas listed in Section V.

3. RATES AND CHARGES • USAGE

- a. Rate Structure. Teleconnect's Flexible MTS Services have a rate structure which is based on the specific rates which are listed in this Tariff.
- b. Determination of Duration.
- .01 Chargeable time begins when the connection is established between the calling station and the desired telephone, attendant board, or private branch exchange console.

.02 Chargeable time ends when the connection is terminated.

.03 Chargeable time does not include time lost because of faults or defects in the service.

- C. Calculation of Charge. A customer may subscribe to any particular Flexible MTS Service plan listed in this Tariff. The plan to which the customer subscribes determines the specific rates which the customer is charged. To determine the appropriate charge, each call is rated by using the following method.

.01 FLEX-SAVE PLUS

- (a) The- initial whole minute or fraction thereof is subject to the initial minute rate for the appropriate plan to which the customer has subscribed.
- (b) The subsequent seconds beyond the initial minute are rounded in tenth of a minute (6 second) intervals with any remaining seconds rounded to the next higher tenth of a minute interval. Those 6-second increments are subject to the precise billing factor for the appropriate plan to which the customer has subscribed.
- (c) The charge calculated for the initial minute plus the charge calculated for the subsequent 6-second increments determines the precise billing charge for the call. The total amount of the call is rounded up to the nearest whole cent.

3. RATES AND CHARGES - USAGE

a. Determination of Duration

.01 The duration of a call begins when the connection is established between the calling station and the desired telephone attendant board or PBX console.

.02 The duration of a call ends when the connection is terminated.

.03 The duration of a call does not include time lost because of faults or defects in service. .

b. Determination of Time of Day.

.01 Day. Daytime rates shall apply from 8:00 a.m. until 5:00 p.m. Monday through Friday except on the holidays listed in J .3.e following.

.02 Evening. Evening rates shall apply from 5:00 p.m. until 11:00 p.m. Sunday through Friday.

.03 Night/weekend. Night/Weekend rates shall apply at all times not listed in J.3.b.01 and .02 listed above.

c. Calculation of Charge

.01 PROFITLINE, PROFITLINE PLUS, 800 SUPERWATS PLUS and TRAC-800

(a) The initial 30 second charge found in J.3.d is applied to the initial 30 seconds of the duration or any fraction thereof.

f. High Volume Discount

.01 PROFITLINE PLUS, 800 SUPERWATS PLUS and CHECK-LINK.

PROFITLINE PLUS day usage rates, 800 SUPERWATS PLUS and CHECK-LINK rates are subject to the High Volume Discounts listed in J.3.f.02. This discount is applicable only to interstate and intrastate continental United States usage only.

.02 Application. At the end of each billing cycle, the dollar volume of the customer's PROFITLINE PLUS, 800 SUPERWATS PLUS and CHECK-LINK calls during the billing cycle is calculated.

For PROFITLINE PLUS, this is the aggregate of both intrastate and interstate calls as well as the appropriate intrastate and interstate DAYSAVER PLUS calls described in Section C.

For 800 SUPERWATS PLUS, this is the aggregate of both intrastate and interstate 800 SUPERWATS PLUS calls as well as the appropriate intrastate and interstate SUPERWATS PLUS calls described in Section E.

The aggregate volumes are then used with the charts below to determine the amount of the High Volume Discounts. For PROFITLINE PLUS, the exempt calls as listed in Section C.8.b. are applicable. Only daytime traffic from both DAYSAVER PLUS and PROFITLINE PLUS will receive the high volume discount. For 800 SUPERWATS PLUS customers, the level of discount is determined as previously mentioned but only applied to interstate and intrastate continental United States usage.

1. DESCRIPTION

- a. Credit Card Service is an interexchange telephone service which allows customers to originate calls from any telephone in the State of Arizona and terminate calls in any location within the State of Arizona.
- b. There are two methods of initiating a call under Credit Card Service. The two methods are as follows:

.01 ALL-CALL AMERICA

- (a) User dials 1-800-255-2255 (1-800-ALL-CALL).
- (b) Authorization code is given to an operator.
- (c) Area code and number are given to an operator.

.02 TRAVEL SERVICE

- (a) User dials 1-800-373-7373.
- (b) Authorization code is given to an operator.
- (c) Area code and number are given to an operator.

2. AVAILABILITY

Credit Card Service is available to any Teleconnect customer having an authorization code.

3. RATES AND CHARGES

- a. Nonrecurring Charges. Credit Card Service is provided without additional monthly rates or nonrecurring charges to customers having authorization codes.

b. Usage Rates. Credit Card Service is subject to a flat per minute rate.

c. Determination of Duration

.01 Chargeable time begins when the connection is established between the calling station and the desired telephone, attendant board, or private branch exchange console.

.02 Chargeable time ends when the connection is terminated.

.03 Chargeable time does not include time lost because of faults or defects in the service.

d. Calculation of Charge. The end-user may use either method of access when using Teleconnect's Credit Card Service. The method of dialing utilized by the end-user determines the specific rates which the subscriber is charged. To determine the appropriate charge, each call is rated using the following method.

.01 The initial minute or fraction thereof is subject to the initial minute rate for the appropriate dialing procedure.

.02 The subsequent seconds are rounded in whole minute increments with the remaining seconds rounded up to the next whole minute and are subject to the additional minute rate for the appropriate dialing procedure. "Day," as used in this section (Section K) means 8:00 a.m. until 5:00 p.m. Monday through Friday, except for the holidays listed in K.5 following. "After Hours," as used in this section, means all other times not included in the definition of "Day" above.

.01 Direct Connect. Teleconnect provides this function to customers who are in need of obtaining a station number from a directory assistance-like service. A customer wishing to use this service will enter "* 0" following the prompt tone. A Teleconnect attendant will come onto the line and request the name and location of the party the customer wishes to access. After acquiring the necessary information from the customer, the Teleconnect attendant will contact directory assistance, obtain the number desired, and then pass the information along to the customer: The customer will then choose to either terminate the call or have the Teleconnect attendant complete the call.

(a) Directory Assistance-like Service Rates and Charges. The customer will be charged a maximum of \$0.90 per call whenever the Teleconnect attendant contacts directory assistance for the purpose of obtaining information for the customer.

(b) Attendant Assisted Rates and Charges. If the Teleconnect attendant connects the customer with the station or the party in question, the customer will incur the following charge as appropriate.

		Maximum Charge Per Call
Station to Station	Person to Person	\$1.88
		\$4.50

In addition to this charge, the customer will incur a maximum charge of \$0.90 maximum directory assistance charge and the long distance charges shown previously.

.02 Message Storage and Forward. This service provides the customer with a message relay service. The customer will contact a Teleconnect attendant by entering "* 4" following the tone, tape the desired message, and specify the date and time for delivery. Teleconnect will attempt to deliver the message- in the following manner. The initial attempt will correspond with the customer's requested time of delivery, the next three (3) attempts will be spaced fifteen (15) minutes apart, and the last four (4) attempts will be spaced sixty (60) minutes apart. Teleconnect will make no more than eight (8) attempts at delivery. Teleconnect does not guarantee successful delivery of messages. The rates and charges incurred by the customer for service are as follows:

<u>Activity</u>	<u>Maximum Charge</u>
Taping of message - per minute	\$0.44
Relay of message - per minute	\$0.44
Attendant Surcharge - per message:	
Station to Station	\$3.00

- b. Speed Dialing. Speed Dialing provides the customer with a simplified means of accessing frequently called numbers. The customer enters a specified code which is automatically converted into a telephone number. These codes are programmed and maintained by the customer. The Speed Dialing option is accessed by entering "* 9." The customer will then enter "0" to access the automated attendant which will assist the customer in programming the speed codes. The customer has the capability of programming up to nine (9) personalized speed dial numbers.

This option is provided free of charge to * USA Card customers.

- c. Miscellaneous Options. * USA Card available options are as set forth in Section T.

to be reached, or a particular station, department, or office to be reached through a communications system attendant. An exception to this service category is outlined in b. below.

- b. Customer Dialed Calling Card. Customer Dialed Calling Cards allow for completion of non-operator assisted calls when one of the following dialing sequences is utilized:

.01 0 + NPA + NXX-XXXX + Credit Card Number

.02 00 + NPA + NXX-XXXX + Credit Card Number

.03 Calling party inserts a credit card into a card reader (where equipment is available) dials the digit zero, or double zero, plus NPA-NXX-XXXX.

.04 In addition, a call is considered as Customer Dialed Calling Card when the calling party dials:

0 + NPA + NXX-XXXX or

00 + NPA + XXX-XXXX, and the credit card number is given to the operator if Teleconnect does not have automatic recording equipment to record the credit card number, and the call is not classified as Person-to-Person as described in c. below.

- c. Person-to-Person Service. Person-to-Person Service allows the person originating the call to specify to a Teleconnect operator a particular person to be reached, or a particular station, department, or office to be reached through a communications system attendant.

When, after the telephone, or communications ~~has been connected~~

and while the connection remains established, the person originating the call requests or agrees to talk to any person other than the person specified, or to any other person, station, department, or office to be reached through a communications system attendant, the classification of the call remains Person-to-Person.

When the person originating the call wishes the Teleconnect operator to make arrangements in advance with a particular party or station for the establishment of a connection at a specific time (appointment call), the call is classified as Person-to-Person.

4. RATING A CALL

For Operator Station-to-Station, Customer Dialed Calling Cards and Person-to-Person calls, the process of rating a call is as follows:

a. Rate Structure

.01 Initial period rates given in the rate table in M.8.b following are for the initial minute or any fraction thereof.

.02 All additional minute rates given in the rate table in M.8.b following are for each additional minute or any fraction thereof that the connection continues beyond the initial minute.

.03 When application of the rates results in a fractional charge for a call, the amount will be rounded down to the lower cent.

b. Calculation of Charge

- .01 The billing elements used to determine message charges are:
the initial period, the additional minute and the applicable
operator service charge.
- .02 Charges for both the initial period and additional minute billing
elements are applied on the basis of whole minute intervals.
The billing interval for these elements is determined by round-
ing up partial minutes to the next whole minute.
- .03 The charge for the initial period is the initial period billing
rate applicable for the rate period in which the chargeable
connect time occurs. The charge for each additional minute of
usage is the additional minute billing rate for the rate period
in which the beginning of each additional minute occurs. These
billing rates are shown in M.8.b.

c. Determination of Duration

- .01 Operator Station-to-Station and Customer Dialed Calling Cards
- (a) Chargeable time begins when connection is established
between the calling station and the desired telephone,
communications system attendant or directly dialed station.
- (b) Chargeable time ends when the connection is terminated.
- (c) Chargeable time does not include time lost because of
faults or defects in the service.

.02 Person-to-Person

(a) Chargeable time begins when connection is established between the calling person and the particular person or station specified or an agreed alternate.

(b) Chargeable time ends when the connection is terminated.

(c) Chargeable time does not include time lost because of faults or defects in the service.

d. Determination of Time of Day.

.01 Day Rates. These rates are applicable from 8:00 a.m. until 5:00 p.m. Monday through Friday with the exception of holidays.

.02 Evening Rates. These rates are applicable from 5:00 p.m. until 11:00 p.m. Sunday through Friday.

public coin telephone, the charges must be billed to a credit card or third party number, or the call may be re-originated from the called station. The regularly established rates apply except that:

When the called station does not accept the charges and the calling party requests the Teleconnect operator to place the call later, on a collect basis, the classification of the call is changed to Person-to-Person and the rates and regulations applicable to Person-to-Person apply.

6. BILL TO THIRD PARTY

Bill to Third Party denotes a billing arrangement by which a call may be charged to an authorized station as determined by Teleconnect other than the station originating the call or the station where the call is terminated. Bill to Third Party calls may be Person-to-Person or Operator Station-to-Station as designated by the calling party.

7. CREDIT CARD

The term "credit card" denotes a credit/charge card for use in billing operator services calls. Credit cards denote any acceptable financial card which Teleconnect deems appropriate. Examples are:

- a. Visa/Mastercard
- b. American Express card
- c. Diner's card
- d. Any BOC credit card

1. ACCOUNT CODES

a. Description

.01 General. An Account Code Package is a service providing the customer with control, within prescribed limits, over the format of the bill. Account Codes can vary in length between two and four digits are used by the customer to identify charge-back accounts and/or individuals.

.02 Variable Length Account Codes. The customer can choose between three Account Code package sizes. If this service is ordered the customer must enter a valid Account Code at the end of the normal dialing sequence to complete a call. When codes are ordered without the screened function, any digit meeting the package's parameters can be entered and will be registered as valid. Teleconnect is not responsible for invalid assignment of usage to a valid code.

.03 SECURE-CALL Codes

(a) General. In addition to subscribing to a variable-length Account Code package, the customer may request that the codes be "screened." The process of screening account codes is referred to as SECURE-CALL Service. SECURE-CALL Service packages have certain specific codes within the parameters of the package invalidated. If one of these invalidated Account Codes is used in an attempt to place a

a call, the call will not be completed. Again, Teleconnect is not responsible for invalid assignment of usage to a valid code. However, the possibility of improper assignment has been greatly diminished by the use of screened codes.

Charges for screened accounts codes are in addition to charges for the initial account code package.

- (b) Packaging. Predetermined packages of randomly selected 2, 3 and 4 digit account codes are available. Valid Codes can range from 25 to 1,000 codes for screened accounts.

.04 Customized Screened Account Codes. Instead of using a predetermined package, customers are allowed to have specific account codes validated or invalidated according to their unique needs or wants. In this case the special packages of account codes are called Customized Screened Account Codes.

The customer must first subscribe to Account Codes and pay the premiums for SECURE-CALL Codes in order to receive Customized Screened Account Codes.

.05 Name Identification. Customers requiring further account code identification may opt for a name to be assigned to each individual account code. Certain characters and names may be reserved for use by Teleconnect.

- b. Availability. Account Codes are available to all customers which have a DTMF-producing instrument. If a customer places 1+ calls within the LATA (that is, places the call over ~~an~~ network other than Teleconnect's) Account Codes will not work.

By: Dennis L. Ricca, Director, Regulatory Affairs, Teleconnect Long Distance Service & Systems Company, 500 2nd Avenue, S. E., Cedar Rapids, Iowa 52401

- b. Availability. SUPERWATS PLUS Billing Detail is available to SUPERWATS PLUS customers. Any future changes from summary only to the SUPERWATS PLUS Billing Detail option would subject the customer to the charges listed below.

- c. Rates and Charges

<u>One Time</u>	<u>Monthly*</u>

8. CORPORATE ACCOUNT BILLING

- a. Description. Corporate Account Billing ("CAB") allows for the consolidation of multiple accounts into a single billing group for purposes of receiving an additional volume discount over and above any volume discount already received. Consolidation can occur as a result of combining the bills, regardless of plan type, of a customer with one or more locations residing inside or outside the state. All usage generated dollars contribute to the consolidated volume.

The customer must specify one Master Account per corporate account billing group. This account will receive the monthly management report which is a summary listing of all activity occurring within all the sub-accounts. Each sub-account has its own standard 7-digit account number. There can be an unlimited number of sub-accounts tied to a Master Account.

- b. Availability. Corporate Account Billing discounts are available to all Teleconnect customers who subscribe to a long distance plan which is subject to high volume discounts.
- c. Length of Agreement. The customer has the option of signing up for a term agreement (one, two, or three years) or can agree to the base (month to month) contract. The contractual length agreed to determines, in part, the additional volume discount received.
- d. Application of Discount. The discount level will be determined by using the aggregate net dollar volume (after applying existing discounts) of all Teleconnect services, both intrastate and interstate, used by the customer, but the discount will be applied only to those Teleconnect services which are tariffed to receive High Volume Discounts. This discount will be applied after and in addition to the tariffed High Volume Discounts for each service. The following services do not contribute to nor receive the additional discount this service provides: CHECK-LINK.

Prompt payment must be made for those services listed in Section A. 17 (Late Payment) of the tariff in order to receive both the plan type volume discount as well as their portion of the CAB discount. Late payment from one account will not affect the discount eligibility of the other accounts in the CAB group.

\$250,000+	8%	2%	3%	4%	10%	11%	12%

- f. Discontinuance of Service Prior to Expiration of Term. In the event a customer chooses to discontinue the contract prior to the completion of the term of the contract, the following penalties will apply:

.01 The customer who terminates the contract prior to the end of the first year must repay 100% of the additional discount received up to that point.

.02 The customer who terminates the contract the second year must repay 75% of the additional discount received up to that point.

.03 The customer who terminates the contract the third year must repay 50% of the additional discount received up to that point.

- g. Rates and Charges. CAB subscribers are subject to a \$50.00 monthly fee for the Master Account. If duplicate billing is requested by the customer, there is a charge for each sub-account.

9. DIALED NUMBER IDENTIFICATION SERVICE (DNIS)

- a. Description. This is an 800 service enhancement that will allow customers with multiple 800 numbers to more efficiently use their dedicated facilities. With this service, the Teleconnect switch will be able to notify the customer which specific 800 number was dialed. This notification consists of a unique signal - one for each 800 number - sent from the Teleconnect switch to the customer PBX. Based on this signal, the PBX will be able to route the call to the correct 800 destination.
- b. Availability. This service is available only to those customers with dedicated facilities.
- c. Rates and Charges. Dialed Number Identification Service is subject to the following charges:
